

Lion Environmental's Statement of Qualification for Chemical Agents

Lion Environmental specializes in the management of hazardous chemicals in industrial operations, ensuring safe handling, storage, transportation, and overall risk control. With our extensive experience across various industries, we possess the expertise to identify, assess, and manage hazardous chemicals in compliance with regulatory requirements.

Our team of professionals works closely with clients to evaluate the risks associated with the storage, handling, and use of hazardous chemicals in their workplace. We collaborate with you to implement proper risk control measures, reducing the potential for fires, explosions, corrosion, and hazardous reactions. Our goal is to protect workers, members of the public, property, and the environment from the risks posed by hazardous chemicals.

Lion Environmental assists in identifying alternative chemicals with lower hazardous profiles, eliminating discontinued chemical processes, and establishing engineering controls to isolate individuals and the environment from hazardous substances. We also provide guidance on administrative controls to enhance workplace safety and offer expertise in selecting appropriate personal protective equipment (PPE) when exposure cannot be completely eliminated.

Our experts conduct comprehensive risk assessments, evaluating storage, handling, transportation, and management practices for hazardous chemicals in your workplace. We keep you up to date with the latest worker health and safety codes, practices, and legislation, ensuring your business meets its legal obligations.

In addition to management systems, Lion Environmental emphasizes the importance of safety training for employees. We assist in developing effective training programs that align with your risk management plan, covering topics such as chemical handling, storage, and emergency response procedures. Our approach also includes contingency planning for emergencies.

Lion Environmental tailors management plans to meet corporate, national, and international standards and requirements. We can conduct audits of your program, benchmarking it against internal and global standards and best practices. Our recommendations are practical, efficient, and prioritized to protect your workforce and the environment. We ensure compliance with reporting requirements set forth by ELDIOM (Elektroniczna Deklaracja Informacji o Mieszaninach), the ECHA (European Chemical Agency) submissions and REACH. Our reporting standards are clear, concise, and present findings in simple, logical, and understandable terms.

We welcome the opportunity to showcase our experience and demonstrate how our services can benefit your organization. Feel free to reach out to us, and we will be pleased to discuss your specific needs and present our expertise in managing hazardous chemicals effectively.

World Class Environmental Social Governance Solutions

Lion Environmental is a leading ESG consultancy, offering comprehensive solutions to businesses seeking to enhance their environmental, social, and governance performance. With a strong emphasis on customer satisfaction, we have built a solid reputation as a trusted advisor in managing ESG risks and delivering successful projects across diverse industries.

At Lion Environmental, our team of seasoned professionals brings together a wealth of expertise from various natural sciences disciplines. Through our holistic approach, we provide expert guidance, pragmatic solutions, and measurable outcomes for our clients. We pride ourselves on our ability to view projects from multiple angles, ensuring comprehensive environmental assessments, auditing, sustainability, permitting, and outsourcing services.

Our commitment to excellence is reflected in our track record of on-time project delivery, coupled with transparent communication with all project stakeholders. We believe in fostering long-term relationships based on trust and satisfaction, as evidenced by our high rate of repeat clients who entrust us with their future endeavours.

With an extensive portfolio, we have been participating in the Polish energy transition, managing contaminated land, developing critical infrastructure, and assessing companies' ESG performance across all sectors of the industry. This diverse experience allows us to tailor our ESG consultancy services to meet the unique needs and regulatory requirements of each industry.

Partner with Lion Environmental to elevate your ESG performance and unlock sustainable growth. Our expertise, dedication to quality, and client-centric approach make us the ideal choice for businesses committed to environmental stewardship and responsible business practices.

Sebastian Stachowski

The past decade Sebastian, the founder and CEO of Lion Environmental, has skilfully guided the company through a period of inspiring growth and transformation, propelling it from a small EHS firm to a flourishing ESG consultancy and beyond. Alongside establishing Lion, he also founded REMEDy, a conference committed to addressing soil and groundwater contamination concerns.

With a unit of dedicated subject-matter experts, he leads the organization in participating in the Polish energy transition, managing contaminated land, developing critical infrastructure, and assessing companies' ESG performance. His experience working with leading EHS consultancies in the past has provided him with the necessary skills and expertise to provide top-shelf consulting services.

His commitment to excellence, expertise and dedication, has caused impressive growth and success for Lion. As a result of his leadership, Lion is now recognized as a leader in the industry, providing unparalleled consulting services to clients.

Monika Rzeźniczak

Is the Vice-President and Technical Director possesses over a decade of experience in the fields of environment and sustainability. With her extensive knowledge, she has become a trusted advisor to over 70 international and Polish clients on environmental engineering, sustainability, and ESG solutions.

Her diverse portfolio of managed projects spans several industries, including oil and gas, renewable energy, pharmaceuticals, waste management, and aerospace. Furthermore, Monika has participated in extensive environmental and water management studies, providing her with a wealth of knowledge in the field. Her experience in planning and agreeing offshore investments in Poland has positioned her as a respected leader in the industry. She is actively involved in driving ESG strategies for both Lion and her clients, showing great enthusiasm for sustainable technologies and investment development.

Her contributions to the field of sustainability have been recognized in the market, making her a highly sought-after professional. Her dedication, passion, and expertise continue to make a significant impact in the areas of environment and sustainability.
