

Lion Environmental's Statement of Qualification for Natural Resources

We are a trusted and experienced team specializing in Natural Resources Management, with a proven track record in successfully navigating the challenges and maximizing the profitability of exploration and production ventures.

We understand that timely approval of exploration or production licenses is crucial to the success of such projects, and we possess the knowledge and expertise to facilitate the smooth acquisition of necessary permits and approvals as well as post development monitoring programs.

Our team comprises geologists, hydrogeologists, and engineers who are adept at comprehensively analyzing your business objectives and the opportunities presented by natural resources development. By collaborating closely with you, we will devise a tailored strategy that aligns with your project's specific needs and objectives.

We have a thorough understanding of the regulatory landscape and have successfully completed projects across all operational stages, ranging from seismic acquisition for exploration purposes to the drilling of exploratory boreholes as well as full field development activities.

Recognizing the significant water demands associated with natural resources operations, we are equipped to assess your water requirements and collaborate with you to enhance your water balance. We have extensive experience in addressing challenges related to waste management, including the generation of mining waste, wastewater, and tailings. Our team conducts third-party landfill audits that mitigate long-term liabilities, ensuring compliance and reducing potential risks.

Throughout the years, operators of oil and gas production facilities, as well as ore mining and aggregate operations, have relied on our expertise to find cost-effective solutions tailored to their specific challenges. We take pride in delivering practical and innovative approaches that optimize operations and drive sustainable growth.

Choose our team for your Natural Resources Management needs, and benefit from our in-depth knowledge, comprehensive services, and commitment to delivering successful outcomes for your projects.

Lion Environmental is a leading ESG consultancy, offering comprehensive solutions to businesses seeking to enhance their environmental, social, and governance performance. With a strong emphasis on customer satisfaction, we have built a solid reputation as a trusted advisor in managing ESG risks and delivering successful projects across diverse industries.

At Lion Environmental, our team of seasoned professionals brings together a wealth of expertise from various natural sciences disciplines. Through our holistic approach, we provide expert guidance, pragmatic solutions, and measurable outcomes for our clients. We pride ourselves on our ability to view projects from multiple angles, ensuring comprehensive environmental assessments, auditing, sustainability, permitting, and outsourcing services.

Our commitment to excellence is reflected in our track record of on-time project delivery, coupled with transparent communication with all project stakeholders. We believe in fostering long-term relationships based on trust and satisfaction, as evidenced by our high rate of repeat clients who entrust us with their future endeavours.

With an extensive portfolio, we have been participating in the Polish energy transition, managing contaminated land, developing critical infrastructure, and assessing companies' ESG performance across all sectors of the industry. This diverse experience allows us to tailor our ESG consultancy services to meet the unique needs and regulatory requirements of each industry.

Partner with Lion Environmental to elevate your ESG performance and unlock sustainable growth. Our expertise, dedication to quality, and client-centric approach make us the ideal choice for businesses committed to environmental stewardship and responsible business practices.

Sebastian Stachowski

The past decade Sebastian, the founder and CEO of Lion Environmental, has skilfully guided the company through a period of inspiring growth and transformation, propelling it from a small EHS firm to a flourishing ESG consultancy and beyond. Alongside establishing Lion, he also founded REMEDy, a conference committed to addressing soil and groundwater contamination concerns.

With a unit of dedicated subject-matter experts, he leads the organization in participating in the Polish energy transition, managing contaminated land, developing critical infrastructure, and assessing companies' ESG performance. His experience working with leading EHS consultancies in the past has provided him with the necessary skills and expertise to provide top-shelf consulting services.

His commitment to excellence, expertise and dedication, has caused impressive growth and success for Lion. As a result of his leadership, Lion is now recognized as a leader in the industry, providing unparalleled consulting services to clients.

Monika Rzeźniczak

Is the Vice-President and Technical Director possesses over a decade of experience in the fields of environment and sustainability. With her extensive knowledge, she has become a trusted advisor to over 70 international and Polish clients on environmental engineering, sustainability, and ESG solutions.

Her diverse portfolio of managed projects spans several industries, including oil and gas, renewable energy, pharmaceuticals, waste management, and aerospace. Furthermore, Monika has participated in extensive environmental and water management studies, providing her with a wealth of knowledge in the field. Her experience in planning and agreeing offshore investments in Poland has positioned her as a respected leader in the industry. She is actively involved in driving ESG strategies for both Lion and her clients, showing great enthusiasm for sustainable technologies and investment development.

Her contributions to the field of sustainability have been recognized in the market, making her a highly sought-after professional. Her dedication, passion, and expertise continue to make a significant impact in the areas of environment and sustainability.
