

## Lion Environmental's Statement of Qualification for Remediation

**Lion Environmental possesses extensive expertise in the remediation of complex and costly contaminated sites. We understand the importance of assessing and reporting the scale of contamination to regulatory authorities. Our team excels in finding innovative and cost-effective solutions for contaminated sites, prioritizing minimized costs, regulatory compliance, and timely resolution.**

When a release occurs, the law requires the responsible party to take action. In such cases, Lion Environmental conducts a thorough site characterisation using the latest technologies to determine the extent of contamination release. We then prepare a conceptual site model and utilize the obtained information to develop a feasibility study and design a comprehensive human health risk assessment or remedial action plan, development of which we also monitor on our Client's behalf.

Our approach is tailored to your specific needs, considering factors such as time, budget, and long-term objectives. We present various options, accompanied by detailed cost estimates and potential liabilities, ensuring transparency and informed decision-making. Our project designs range from complete removal of contaminants through ex-situ remediation to the implementation of in-situ treatment methods. Lion Environmental works closely with clients to identify the most suitable approach that aligns with long-term site usage or development plans. Throughout the process, we prioritize meeting regulatory requirements and addressing local concerns.

Furthermore, our qualifications include the ability to design remediation action plans as well as human health risk assessments and prepare appropriate applications for regulatory authorities. We have the expertise and resources to coordinate the removal of contaminated soil through ex-situ remediation techniques. Additionally, we excel in designing and deploying tailored in-situ treatment solutions that consider the specific contamination, as well as geological and hydrogeological conditions, all in a cost-effective manner.

At Lion Environmental, we are committed to delivering comprehensive and efficient remediation solutions. Our team's expertise and experience enable us to tackle the complexities of environmental releases, ensuring the highest standards of environmental protection while minimizing costs and liabilities. We work collaboratively with clients, regulators, and stakeholders to achieve sustainable remediation outcomes that meet both immediate and long-term objectives.

## World Class Environmental Social Governance Solutions

**Lion Environmental is a leading ESG consultancy, offering comprehensive solutions to businesses seeking to enhance their environmental, social, and governance performance. With a strong emphasis on customer satisfaction, we have built a solid reputation as a trusted advisor in managing ESG risks and delivering successful projects across diverse industries.**

At Lion Environmental, our team of seasoned professionals brings together a wealth of expertise from various natural sciences disciplines. Through our holistic approach, we provide expert guidance, pragmatic solutions, and measurable outcomes for our clients. We pride ourselves on our ability to view projects from multiple angles, ensuring comprehensive environmental assessments, auditing, sustainability, permitting, and outsourcing services.

Our commitment to excellence is reflected in our track record of on-time project delivery, coupled with transparent communication with all project stakeholders. We believe in fostering long-term relationships based on trust and satisfaction, as evidenced by our high rate of repeat clients who entrust us with their future endeavours.

With an extensive portfolio, we have been participating in the Polish energy transition, managing contaminated land, developing critical infrastructure, and assessing companies' ESG performance across all sectors of the industry. This diverse experience allows us to tailor our ESG consultancy services to meet the unique needs and regulatory requirements of each industry.

Partner with Lion Environmental to elevate your ESG performance and unlock sustainable growth. Our expertise, dedication to quality, and client-centric approach make us the ideal choice for businesses committed to environmental stewardship and responsible business practices.

### Sebastian Stachowski

The past decade Sebastian, the founder and CEO of Lion Environmental, has skilfully guided the company through a period of inspiring growth and transformation, propelling it from a small EHS firm to a flourishing ESG consultancy and beyond. Alongside establishing Lion, he also founded REMEDy, a conference committed to addressing soil and groundwater contamination concerns.

With a unit of dedicated subject-matter experts, he leads the organization in participating in the Polish energy transition, managing contaminated land, developing critical infrastructure, and assessing companies' ESG performance. His experience working with leading EHS consultancies in the past has provided him with the necessary skills and expertise to provide top-shelf consulting services.

His commitment to excellence, expertise and dedication, has caused impressive growth and success for Lion. As a result of his leadership, Lion is now recognized as a leader in the industry, providing unparalleled consulting services to clients.

### Monika Rzeźniczak

Is the Vice-President and Technical Director possesses over a decade of experience in the fields of environment and sustainability. With her extensive knowledge, she has become a trusted advisor to over 70 international and Polish clients on environmental engineering, sustainability, and ESG solutions.

Her diverse portfolio of managed projects spans several industries, including oil and gas, renewable energy, pharmaceuticals, waste management, and aerospace. Furthermore, Monika has participated in extensive environmental and water management studies, providing her with a wealth of knowledge in the field. Her experience in planning and agreeing offshore investments in Poland has positioned her as a respected leader in the industry. She is actively involved in driving ESG strategies for both Lion and her clients, showing great enthusiasm for sustainable technologies and investment development.

Her contributions to the field of sustainability have been recognized in the market, making her a highly sought-after professional. Her dedication, passion, and expertise continue to make a significant impact in the areas of environment and sustainability.
